this tour of duty he was hand picked to attend the Weapons and Tactics Instructor school in Yuma Arizona.

He attended the Amphibious Warfare School in Quantico, Virginia before reporting to Marine Air Group 42, NAS Alameda, California as the Assistant Operations Officer, Training Officer, Chemical Officer and the Weapons and Tactics Instructor.

In 1987 he left the Marine Corps and received an inter-service transfer to the Naval Air Reserve where he was a pilot with HAL-5 and a plank owner with the newly established Helicopter Special Support Squadron Five (HCS-5) flying the HH-60H providing Special Warfare Support and Combat Search and Rescue. It was during this time that CDR Landis was a pilot with American Eagle flying Twin engine Metro Liners and the SAAB 340. He left HCS-5 on the West coast for an Aviation Safety job at NAS Patuxent River, Maryland and continued to fly in the Navy Reserve with HCS-4 based in Norfolk where he served as the Tactics Department Head and Maintenance Officer.

For a decade as a drilling reservist he was twice mobilized for Operation Desert Shield/Storm and Restore Hope and spent an average of 100 days a year on active duty in support of Special warfare units and the regular Navy throughout the world.

In 1999, CDR Landis was recalled back to active duty and served as the Assistant Operations Officer for the Commander Naval Forces Korea in Seoul, Korea.

The Perfect Investment

- High rate of return: A total return high enough to out perform inflation and taxes, and still meet the investment goal.
- Complete safety: There would be no concern that any part of the investment could ever be lost.
- Always liquid: An investor would be able to redeem the investment, and receive cash, at any time of day or night, every day of the year without any penalty or loss of principal.
- No income taxes: There would never be any income taxes due on the investment's yield or growth. The investor keeps everything earned.
- No skill or knowledge required: No special skill or knowledge would be required to manage the investment. One could just forget about the investment and enjoy life.

The Real World

Such a "perfect" investment does not exist, of course. In the real world, individual investors must choose from a confusing range of investment tools, each with different characteristics and uses. The process of selecting the best investment for a particular need or situation is made easier by clearly answering the following questions:

- Why are you investing? Do you need income for current lifestyle or are you accumulating money for a future need?
- When will the money be needed? At any moment? A year from now? At retirement, 10 years from now?
- How much risk are you willing to undertake? Can you afford to lose all or a part of the investment, and not have the loss affect your lifestyle?
- Are income taxes a concern? If the investment is currently taxable, to what extent will the additional tax reduce investment growth or push you into a higher tax bracket?
- What is the economic outlook? Investment opportunities will vary depending on whether the economy is growing or shrinking.
- Do you have the skill and knowledge needed to manage your investment? Is professional investment management needed?
- How much money is there available to invest? Are smaller amounts of money available periodically, or is there currently a larger, lump sum of money?

"Unsung Heroes"

Twelfth Annual Wanderer Keel Awards

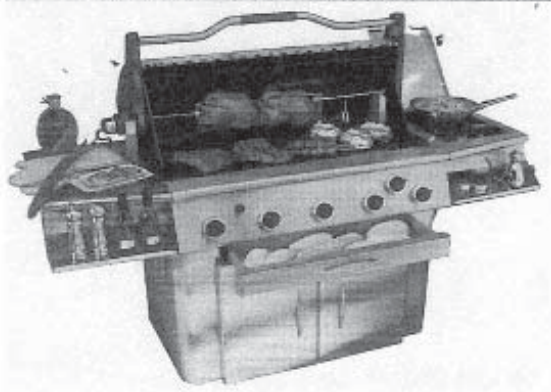

By Kenneth J. Souza

The Wanderer is once again proud to announce the worthy recipients of our twelfth annual "Wanderer Keel Awards." The yearly community service honor — which is presented to one resident from each of the three central towns in our circulation area — is given to those who have contributed in some way to the overall benefit of the community. This recognition serves to applaud those who are rarely recognized for their countless hours of service and focus on the many people "behind the scenes" who remain otherwise anonymous but provide crucial support to many town functions. Like the keel of a ship which keeps the vessel from capsizing, the recipients of the Annual Wanderer Keel Award are hereby recognized for their stalwart efforts in keeping the community on an "even keel."

• MATTAPOISETT – Luice Moncevitch, Noyes Avenue.

Mattapoisett residents are surely familiar with the name Luice Moncevitch or, more precisely, "Miss Moncevitch" as she was known to her many students. Although the longtime teacher retired a few years ago from her career as a third grade and art teacher at Center School, this capable woman continues to serve the community as the set designer for the annual Christmas plays at the school. The spectacular scenery for last season's performance of *The Nutcracker* is just one example of Ms. Moncevitch's ongoing contributions and talent and the school production is just one of many she has been involved in. While teaching at Center School, Ms. Moncevitch wrote, choreographed and directed countless

productions. She would often also design the sets and make the costumes herself ... all of which served to bring the best out in her students. Like so many favorite teachers who are only missed after they're gone, Ms. Moncevitch's lasting legacy to Mattapoisett will not soon be forgotten.

labels to benefit the children of Sippican School, and this has fostered an ageless camaraderie between the benefactors and recipients. Former Marion COA Director Diane Duebber, who nominated Ms. Giberti for the award, wrote: "(Ms. Giberti's) cheerfulness and enthusiasm has not dimmed even into her ninth decade, and is still inspiring me from afar. She is a deserving, exemplary citizen with an ageless spirit." Indeed, it is people like Annie Giberti who have inspired the annual presentation of Wanderer Keel Awards, and she is the perfect example of someone who works quietly, "behind the scenes" to keep Marion moving.

Ms. Giberti now joins the ranks of past Marion Keel Award recipients **Claire Russell (1994); Ralph and Phyllis Washburn (1995); Annie Giberti (1996); Jay Crowley (1997); Tyler Blethen (1998); Olive E. meticulous planning and organization efforts of **Arthur F. Benner**, this event would likely never get off the ground and surely be less of the smooth and traditional operation it has become. Anyone who has ever participated in or enjoyed watching this annual local tradition is certainly aware of Mr. Benner's volunteer efforts in planning and executing the race each year — a labor of love he has gladly undertaken for nearly 30 years. Mr. Benner's love for the natural resource that is the Mattapoisett River also extends to his active participation in Alewives Anonymous, a group to which he can claim being one of its charter members.

Like so many people in Rochester who undertake such arduous and daunting tasks simply because they love their town, Arthur F. Benner joins the proud ranks of past Rochester Keel Award recipients **Joseph McCarthy (1994); Jean Fennell (1995); Katherine Hartley Church (1996); Chris Byron (1997); Albert Alderson (1998); Arthur and Aline Lionberger (1999); Kenneth E. Administrator James Huntoon, and Administrative Assistant Veronica Lafreniere.

The board first met with Town Treasurer Naida Parker and Sergeant William Chamberlain of the Rochester Police Department to discuss the town's options for offering direct deposit to employees. Ms. Parker informed the board that they can offer this option to all employees, but because of the 48-hour required processing time, it would shift the current Thursday payday to Friday. The board suggested sending notices in everyone's checks of their plans to start offering this service beginning July 1.

After the board approved the minutes of the May 16 meeting, Mr. Huntoon advised that the town might be able to acquire a piece of property adjacent to St. Rose of Lima's Church. As for the progress on the pending move into the Town Hall Annex in the Rochester Woman's Club on Route 105, Mr. Huntoon said they were doing well before the recent NStar strike, which had created some unexpected delays.

The board next voted to appoint Charles Wolf to the Rochester Board of Appeals (BOA).

Animal Advice

Jay Gould, DVM

What are heartworms?
Heartworms are actual foot long worms that develop in the heart and arteries of the lungs of dogs as well as cats and ferrets.
How are they spread?
Mosquitos spread heartworms from infected dogs to other dogs by transmitting lava found in the blood call microfilaria.
Are heartworms serious?
Unfortunately, yes. They impair the function of the heart and lungs and may kill the dog if they are not treated.
How can they be prevented?
Your veterinarian will check for heartworms with a blood test and then place your dog on a daily or monthly medicine that will kill the microfilaria that was injected into your dog by a mosquito.

At 7:05 pm the board met with Reg Foster of the Marion Cable Committee and Vincent Ryan of the Rochester Cable Committee to discuss the status of the Tri-Town Cable Corporation and TV studio operations at ORR High School.

According to Mr. Foster, he understood that this week's planned Tri-Town Selectmen's meeting was slated to be cancelled in lieu of a Cable Subcommittee meeting so they could move forward on a planned June 1 move into the ORR studio. "Mattapoisett is requesting that the Tri-Town Cable Subcommittee meet first, before the next Tri-Town Selectmen's meeting," Mr. Foster said.

"I would question the logic of postponing the Tri-Town Selectmen's meeting for that reason," Chairman Laboa said.

Mr. Foster advised that Comcast had agreed to finally move the equipment from the Route 6 studio in Marion to ORR on June 1 and they have five volunteers coming in to assist with the move.

"I think it would be great to stay on track with that," Mr. Foster said. "The other action item is the equipment list. There are 152 items on there, but we came down to one tape deck that both (Wareham) and we want. Comcast needs a resolution from all four boards before they can release title to all this equipment to the towns."

The other sticking point, according to Mr. Foster, seems to be offering continued, uninterrupted public and government access service to the towns — particularly Marion — both during and after the transition.

"I think the Public Access Corporation will move along, but I think our most important issue for the summer is: 'who will be running the show for the summer?'" Mr. Foster asked. "I've included a list of all the summer programming that is scheduled. From Rochester's point of view, it's probably the least crucial. Personally, because Marion has been very active in using the facility, it's in the public interest to maintain at least the status quo that we have now while we take the time to really think through the best way to do this."

Mr. Foster said this will be a point of discussion for the planned Cable Subcommittee meeting this week. "If we bring someone in that's sort of the interim studio manager, we can provide the government and public access at the same level," he said.

At 7:25 pm the board met with members of the Rochester Land Trust to discuss the possible purchase of about 33 acres of property owned by Scott Ashworth. According to Susan Peterson, the Land Trust has made a concerted effort to buy similar properties which are taken out of Chapter 61A, but this one would be ideal for several reasons.

"One option is to buy the land for $1.3 or $1.4 million," Ms. Peterson said. "The second option is to ... rezone it as a 'horse lot' ... with permanently protected open space and then resell it. The third option is to partner with the town, preserve a large portion of it, and do some moderate housing development on the remaining part. Rochester has a very small number of affordable

units, so as a community we can have a win-win situation by providing affordable units and preserving open space."

Chairman Laboa expressed concern over being able to come up with a plan — and convince Town Meeting voters to fund the purchase — within the narrow 120-day period before their "right of first refusal" expires.

"You'll be talking about going to Town Meeting ... before August 4 because that's the runout date for the (option to buy)," Mr. Huntoon added.

"If we can protect the back portion of this (property) ... it's a start," said Norene Hartley.

"The only downside I can see is to the landowner, because it's going to take time," Chairman Laboa said.

"We should set some time frame now so we're not getting to August 4 and come up with nothing," Selectman Morse said.

With that, the board charged Ms. Peterson, Richard Cutler and Town Planner Randall Kunz to work on a plan to present to Town Meeting voters within the next two weeks.

The board met with Building Inspector Robert Francis at 8:00 pm to go over his priority office supply list for the Town Hall Annex. According to Mr. Huntoon, $13,000 has already been committed to date — which includes the phone system, alarm system, and utility work. That leaves about $17,000 out of their allotted $30,000 budget.

Mr. Francis' priority list totaled $8,882.80, so they were confident he could proceed with ordering these "must have" items in preparation for the move.

"We're probably not going to be in there next week, so we may have saved a whole month's rent," Selectman Morse added.

Under correspondence, the board received a letter from Dan McGaffey, President of the Pierceville Neighborhood Association (PNA), questioning the recent appointment of Attorney Pat Costello as Special Counsel to the Zoning Board of Appeals (ZBA) in the matter of the Lorusso project.

"It has been represented to the PNA that Town Administrator James (Huntoon) appointed the Special Counsel," Mr. McGaffey wrote. "It is the PNA's under-

standing that appointment of counsel may only be achieved by a vote of the (Selectmen)."

"I don't believe it's necessary for the Board of Selectmen to take a special vote to appoint counsel for a town board or committee," Chairman Laboa said. "The Selectmen vote (to hire) Town Counsel, but we've had special counsel in the past, which doesn't require a vote of (this board)."

Mr. Huntoon said that in his role as Chief Procurement Officer for the town, he may assign Special Counsel, as needed, under Massachusetts General Laws, Chapter 30B. "I've done it on previous occassions ... (when former Town Treasurer) John Hall wanted a counsel for tax takings we used Attorney Costello. That didn't require a vote of the Board of Selectmen. It's sort of been a practice, but I don't think it's anything that's disallowed under (town) by-laws. (Attorney Costello) did concur with (Town Counsel) Dan Perry ... so I don't know what the issue is."

But Selectman Richard Nunes maintained that the ZBA does not have the authority to hire Special Counsel under the town's Zoning By-Laws, and he felt the hiring of any legal counsel should come beforfe the Board of Selectmen. "In this case, the Board of Selectmen did not vote to authorize the Town Administrator to hire legal counsel for the ZBA," he read from a prepared statement. "As a result, I am concerned that the town did not lawfully appoint legal counsel."

"I'm an agent of the town," Mr. Huntoon said.

"You're taking away my authority as the town's Chief Procurement Officer."

"Even if you don't look at it as a Chapter 30B issue, you've got past practice (in place)," Chairman Laboa added.

Selectman Nunes said he wasn't aware of this "past practice" and the law clearly gives the authority to hire legal counsel to the Board of Selectmen. "Unless that authority is delegated to (Mr. Huntoon), he doesn't have it," he said.

"Your failure to know what goes on in Town Hall is not reason to change the rules," Chairman Laboa said.

"I shouldn't have to be in this Town Hall eight hours a day to know what everyone's doing, looking over

everyone's shoulder, but as a courtesy I should have been informed," Selectman Nunes argued. "I don't want to be excluded from something that was this important."

Selectman Nunes suggested having Town Counsel Dan Perry review this matter and offer an opinion on whether or not Mr. Huntoon legally has the authority to hire special counsel.

"If I'm wrong, then I'm wrong," Selectman Nunes said. "But as a board, I would like to vote on it. I haven't seen the bill yet, but I'm not going to approve it."

When Mr. Huntoon informed Selectman Nunes that he already paid an initial invoice under the ZBA when he signed the weekly warrant, Selectman Nunes fumed that all legal bills should come before the Board of Selectmen as public agenda items requiring a vote.

"I want to see every invoice from (Attorney Costello) come before this board," he said.

There being no further matters to come before the board, they unanimously voted to adjourn for the evening at 8:41 pm.

CANDIDATE FOR SELECTMAN
TUESDAY, MAY 31, 2005

On Tuesday, May 31, 2005, you have an opportunity to make a difference in Town Government by voting for Ray Pickles for Selectman.

Marion is a unique small town. That is why I moved here and why my family and I stay here. The character of the village, the harbor, the schools, the level of town services all contributes to our town's uniqueness. Having spent most of my adult life working for Marion, first as Executive Secretary and 10 years as Town Administrator, I am personally vested in preserving Marion's unique character.

I support:

- Efficient Delivery of Town Services
- Preserving Open Space
- Affordable Housing in Small Developments
- Flexible Zoning to Allow the Planning Board to Work with Developers for Sensible Growth
- The Community Preservation Act

As a selectman, I believe my experience and love for the Town of Marion will have a positive effect on Marion's future.

I ask for your support and vote on Tuesday, May 31, 2005.

Ask Marion Family Chiropractic

I've been waking up with numbness in my hands, and it sometimes bothers me during the day. My doctor said I might need surgery for carpal tunnel syndrome. Is there anything a chiropractor can do so I can avoid surgery?

Often, hand numbness, tingling, or pain comes from the nerves in a person's neck. The nerves from your neck run down your arm and into your hand. You might have vertebrae in your neck misaligned, causing irritation that you feel in your hands.

Surgery in the carpal tunnel addresses nerve impingement in the wrist – so if the origin of the problem is your neck, the surgery will not be successful. If you are having hand numbness, weakness, or pain, it is highly recommended that you have a chiropractic evaluation to address what could be the cause of your hand problems.

Chiropractic care is a conservative first option that helps many people avoid surgery.

Do you have a question for the doctors at Marion Family Chiropractic? If so, email it to frontdesk@marionchiropractic.com. It may appear in a future edition of The Wanderer.

Letters to the Editor

To the Editor:

Would a new (Mattapoisett) library be nice? *Yes!* Is it economical and needed? *No!*

I would like to commend the Mattapoisett Library Building Committee on its fund-raising efforts and excellent presentation at Town Meeting. However, I am sure that building two new wings on the current library is not needed in this day and age and uncertain financial times. With the average household having at least one computer with Internet connection, brick and mortar libraries are becoming a thing of the past. Don't get me wrong, libraries are an important part of the community, and the Mattapoisett Free Public Library provides a wealth of important services to town residents. My main concern is that we will be paying for this library for the next 40 years, and as a younger taxpayer, I do not think that this is necessary. If we downgrade the project and work with the $2.1 million that has been raised and allocated by the town, we will have the upgrades and improvements that the current facility needs.

Younger generations are becoming less dependent on libraries and more dependent on the Internet and technology. You can find many periodicals, newspapers and books online, and as technology and demand grow, so will the supply of those cyber resources.

The current library is open for limited hours of operation, Tuesday through Saturday. The increased size will soon require additional staff, books and computers in order to fill it up and monitor the activities correctly. There also will be additional maintenance, heating and air conditioning expenses, which will cause the town budget to continue to grow well into the future.

On Monday, May 9, the Selectmen and the Finance Committee repeatedly scorned the residents for their spending habits, yet both groups continue to support these types of expenses year after year. Taxpayers will have increased financial burdens in the coming years with a new library, school bond interest, a new fire station, and several pieces of equipment.

Please ask yourself how much you, your children, and your neighbors have used and currently use the library. The $2.1 million could earn interest while the town builds up the Capital Planning Stabilization Fund. Please know that I'm not against improving the current library, I'm just against how much it will cost the town now and in the future.

Sincerely,
Jeremy Collier

Fund was established under Massachusetts General Law, Chapter 60, Section 3C and adopted by Town Meeting in April 1994, allowing the voluntary contribution form to be included with real estate tax bills.

This year we have awarded four $300 scholarships to Marion residents to pursue education beyond the secondary school level for the academic year 2005-2006.

We had many outstanding applicants from Old Rochester Regional High School, Bishop Stang High School, Tabor Academy, and various colleges. The selection was very difficult. The committee took into consideration each applicants' financial need, character, scholastic record and involvement in community work, as well as extracurricular school activities.

This year the recipients of the award are: **Courtney Collins**, **Kevin Burke**, **Daniel J. Burke** and **Andrew Coleman**

ATTENTION DRIVERS

If you are involved in a collision you have the right to have your investment, your vehicle, repaired at a shop of your choice. Your insurance company may suggest a list of repair shops. Do not be persuaded by this list, it is not a guarantee of quality of services, nor does it limit your options. You want a shop who will work for you and with you to put your vehicle back to pre-accident condition. **COLLISION SERVICES OF MARION, INC.** is a licensed, bonded, registered repair shop with the state of Massachusetts. We work with all insurance companies to expedite your repairs. The important thing to remember is we repair the vehicle for you, our customers, not the insurance companies. So remember, if the need arises, contact **COLLISION SERVICES OF MARION, INC.** to get back on the road.

To the Editor:

This year for the first time, the date of Marion's Town Election is Tuesday, May 31, immediately after Memorial Day weekend. The League of Women Voters (LWV) is concerned that the unfamiliar date, following on the family activities of the holiday, may make it easy for us to forget to vote.

This year's Marion ballot includes contested races for Selectman, Planning Board, and for the local School Committee, as well as several ballot questions which were passed by Town Meeting last month, but which require approval at the ballot box as well. These include approval of a debt exclusion override to build a new police station.

For eighty-five years, the League of Women Voters has been dedicated to encouraging informed voters to participate in self-government. Please don't forget to cast your vote on Tuesday, May 31. Democracy is not a spectator sport!

Kay Reis

Game of Gold, a "dashing Western romance" to be presented May 26, 27, 28, and 29 at 8:00 pm. This dramatization by Tom Taggart has all the elements that make these blood and thunder melodramas so hilarious — long-lost daughters, stolen gold mines, kidnapped heroines and hairbreadth escapes abound. The play is based on the enormously popular dime novels of the late 1800's by Edward L. Wheeler who created stories about a Robin Hood of the Black Hills named "Deadwood Dick."

Directed by Susan Gould and Michele Kelley, the illustrious cast of the Marion Art Center's production is as follows: Carl Lamoureaux plays Wild Bill Hickok, and his "pard" Ned Harris will be played by newcomer to MAC stage, Jeff Habicht. The two heroines, Lilly Blossom, a tender prairie flower, and Rose Blossom, her resplendent sister, are played by Cynthia Latham and Susie Taylor. The truly evil, black-hearted villain is played by Jay Gould. Deborah Bokelkamp as Calamity Jane is owner of the "Man-Trap Saloon" where the action takes place. Entertainment is provided by Piano Annie (Nancy Sparklin) and the exotic La Paloma (Ruth Olson) and others. Nancy Havel plays Pong Ping, the Chinese cook, and Pete Havel plays Sheriff Loveless. Molly Loveless is played by Sheila Furtado. Mark Latourneau is the bartender and Norris Brown is the Judge of questionable integrity — all the law there is in Deadwood.

The audience is encouraged to wear western garb and join in the fun — hiss the villain and applaud the hero. Reservations are strongly recommended. Tables may

one in Tosashimazu, Shikoku, Japan. He states: "I often start my works with a mental image of a landscape or some stored-up feeling over an event or issue. However, once I 'let loose' on the canvas, my mind set and energies become open-ended, giving me options to alter my direction … Most of my works are abstract and full of quick action and reaction strokes which hopefully allow the viewer to interpret the image through his or her way of seeing."

Hattie Notman studied advanced painting at the Museum of Fine Arts, Boston and has been studying with artist and teacher, Joanna Ruggiero, since 1998. She participated in the Plymouth Annual Juried Show and the Duxbury Winter Juried Show.

The artwork of Hattie Notman is a reflection of her love and experience of music, nature people and place. Hattie's paintings reflect the jazz blues that move her and the landscapes that soothe her. Working with color and form as well as a variety of paint application, she seeks to evoke a feeling for a time or place in an abstract language. Her hope is that others will see in her work their own experiences and feelings and find their own time and place.

The Marion Art Center is located at the corner of Main and Pleasant Streets in Marion. The galleries are open to the public Tuesday through Friday, 1:00 to 5:00 pm and Saturdays, 10:00 am to 2:00 pm. The Burbank / Notman Exhibition runs through June 22 and admission is free.

Marion Candidates Forum

With the town facing inevitable budget constraints and reductions in state aid, how would you approach fiscal spending if (re)elected?

Andrew N. Jeffrey, Incumbent
Marion Selectman (3 year term)
"Through more equitable division of regional school costs, continued capital planning and adherence to spending limits developed jointly with the Finance Committee."

Ray E. Pickles, Candidate
Marion Selectman (3 year term)
"The town must balance the needs of the community with the taxpayers' ability to pay. A careful analysis of town services must be done annually."

What is the first and foremost aspect of Marion town government which should be changed?

Andrew N. Jeffrey, Incumbent
Marion Selectman (3 year term)
"We must continue to improve communication and public involvement, both with respect to routine matters and especially all capital projects."

Ray E. Pickles, Candidate
Marion Selectman (3 year term)
"Marion's form of government with open Town Meeting works fine. Improvement in communication between town government and town's people is critical to resolving public issues."

What is your opinion of construction projects like the proposed expansion or relocation of the Elizabeth Taber Library and the building of a new Marion Police Department?

Andrew N. Jeffrey, Incumbent
Marion Selectman (3 year term)
"In the interest of public and officer safety, I support the proposed police building. The Library should be greatly improved but remain in the village."

Ray E. Pickles, Candidate
Marion Selectman (3 year term)
"Marion's Annual Town Meeting was quite clear that any expansion of the Elizabeth Taber Library would only be supported if the library remains in the village."

What do you think about the planned formation of a Tri-Town Public Access Corporation to oversee and run the cable TV station at ORR High School?

Andrew N. Jeffrey, Incumbent
Marion Selectman (3 year term)
"The Public Access Corporation is a necessity and ultimately will result in enhanced programming, greater public involvement and better communication."

Ray E. Pickles, Candidate
Marion Selectman (3 year term)
"There has not been enough public discussion about the establishment of the tri-town public access corporation for residents to make an informed decision."

What are the most important qualities which make you the ideal choice for this position?

Andrew N. Jeffrey, Incumbent
Marion Selectman (3 year term)
"My business experience and my demonstrated commitment to best management practices, teamwork, communication, and serving the best interests of Marion, honestly and fairly."

Ray E. Pickles, Candidate
Marion Selectman (3 year term)
"Having worked for diversified Boards of Selectmen for 28 years, I believe I have the experience, training and personality to be a successful Selectman."

Movie Review

Evil Empire

By Rob Gonsalves
http://robsreviews.cjb.net

***Star Wars Episode III: Revenge of the Sith.* Starring Ewan McGregor, Natalie Portman and Hayden Christensen. Directed by George Lucas. Running time: 146 minutes. MPAA rating: PG-13.**

And so it ends where it began. *Star Wars Episode III: Revenge of the Sith* is meant to close the loop, to explain how a once-virtuous and powerful Jedi Knight named Anakin Skywalker (Hayden Christensen) became the heavy-breathing, basso-profundo Darth Vader, destroyer of worlds. Does it? Structurally, it does practically nothing else; both rushed and overlong, the movie is as packed as were the theaters playing it last weekend. Emotionally, though, George Lucas' latest folly reads at zero. Anakin's turn towards the Dark Side of the Force is supposed to be driven by fear and loathing, but since the character is so amateurishly written and played, he's little but a cautionary stick figure. The effect, not only of this film but of the previous two, has been to rob one of cinema's most iconic villains of his mystery.

Sith, like Lucas' other effects-laden returns to the lucrative *Star Wars* well, is a pinwheel in frantic motion, except for the dialogue scenes, which stop everything dead. And those are the scenes meant to give this saga thematic weight and resonance, to create a plausible path from light to darkness for a young, impulsive hero terrified of losing his pregnant wife Padmé (Natalie Portman). It's pretty clear that Anakin's mind is being controlled by a two-faced agent of the Sith — the anti-Jedis who are seduced by the forcible aspect of the Force. That would explain some of Anakin's behavior, but it works only on paper. Given a hundred years of cinema language with which to make us *feel* Anakin's turn, to make us experience his dread and suffering, Lucas decides instead to play in the sandbox of the future. He gives us lots of twinkly CGI light shows, most of which are so cluttered and hyper-edited we don't know where to look.

The story of *Sith* really should've been spread out over the previous two movies; we didn't need to pick up Anakin as an insufferable little boy winning pod races. Most of the point of these three prequels is shoehorned into this last film, yet often Lucas even loses the basic thread. Time better spent fleshing out Anakin's character is frittered away on gee-whiz fight scenes — Obi-Wan Kenobi (Ewan McGregor) against the new character General Grievous, a clanking, wheezing precursor of Vader — and fan-pleasing excursions to the planet of the Wookiees, just so Lucas can bring Chewbacca back again. I'm not saying the movie needed to enter the brooding territory of Ingmar Bergman; *The Empire Strikes Back* managed shifts in tone and consciousness without sacrificing its popcorn thrills. Maybe Lucas needs all these fancy distractions so that he won't have to look too closely at the Vader-as-Lucas subtext that, by this point in the saga, is all but unavoidable.

Fans will project 28 years of their own longings onto the finale, which pits Obi-Wan against his former apprentice Anakin on a planet seemingly made of lava. But even here, Lucas succumbs to effects addiction and robs the duel of any humanity. The sight of a lava-ravaged Anakin, flesh ruined and soul consumed by rage, may produce a slight *frisson* — you're watching the birth of a monster. (One wonders, though, why Obi-Wan wouldn't have simply mercy-killed him, rather than leaving him to die in agony — or, as it turns out, to be rescued and given the familiar black metal raiment of Vader.) But perhaps all of this should have remained in the imaginations of the fans, who probably wouldn't have dreamed up such ghastly dialogue, or such annoyances as Jar Jar Binks (who, thankfully, is reduced to a two-shot, no-lines cameo here).

I couldn't spot him, but Lucas is rumored to be in the movie himself, as a character named Baron Papanoida. Father of the nerds? Paranoid pap? It's no small irony that a California geek who probably got stuffed into his share of lockers now commands the biggest franchise in the galaxy. *Sith*, which broke all kinds of box-office records, confirms his grip on the dreams of people worldwide. I suppose I can be forgiven for hoping that this final panel of the saga represents the release of Emperor Papanoid's grip, and that we can return to movies that don't have to be blockbusters, adventures that don't have to be aggressively hectic, and fantasies that don't have to be seemingly written for, and by, slow children.

Your Questions on Dental Implants

Q I consulted a dentist, several years ago, about using dental implants to replace my lower denture (or to at least anchor it) and was told that I did not have adequate bone available to secure implants in the bone without danger of fracturing my now fragile jawbone. What are my options now?

A Because of the advances in the field of dental implantology, there are now more choices and techniques, providing patients like you a wide range of options. Today, it is rare that a person cannot receive an implant or a combination of implants. Today, there are many types of implant systems available - each designed to accommodate multiple problems. For example, if you have a bony ridge that is too narrow for a standard size implants, there is a possibility you could have four mini dental implants placed in the front of your lower jaw to anchor and secure a lower removable denture. In the alternative, you may choose to have a surgical technique that can provide a thicker ridge or increase bone height. This would create a solid foundation for the placement of standard-sized implants, which would allow you the option of replacing your lower denture with non-removable implanted teeth, or the choice of using that restored bone to anchor, with implants, a removable denture.

The objective of the field of implantology, is to return dental function to as near normal as possible, following the loss of some or all your teeth. No one implant system design will cover all possible situations, but the ability to utilize multiple implant system designs, as well as a variety of surgical and restorative techniques, provides patients with far more choices, comfort, and increased functionality than what just a conventional full denture can provide.

Beginning in 1988, the Old Rochester Regional School District established Project GROW as a means of serving preschoolers with special needs in the least restrictive environment and of providing a preschool experience to children who may not otherwise be able to enroll in a program. The integrated preschool classrooms for each town have met that need ever since. As populations have increased, so has the need to service more children in the tri-town area. To that end, Project GROW will institute a new program format for the coming school year.

Children will be enrolled in one of two groups. One group will meet on Mondays, Wednesdays and

SALOME'S STARS

ARIES (March 21 to April 19) You might not like some people's idea of a surprise. But you could be in for a pleasant shock when someone finally sends a reply to a request you made so long ago that you almost forgot about it.

TAURUS (April 20 to May 20) It's a time to expect the unexpected. So don't be surprised if a decision that just recently seemed final suddenly opens up and leaves you with another chance to make an important choice.

GEMINI (May 21 to June 20) Taking a different tack on a work project might rankle some colleagues. But the positive results of your innovative course soon speak for themselves. Celebrate with a fun-filled weekend.

CANCER (June 21 to July 22) Meeting new associates can be awkward, even if you're in a high positive phase right now. Best advice: Make them feel comfortable, and you'll soon forget your own discomfort.

LEO (July 23 to August 22) It's a good time for you social Lions to blow-dry your manes, polish your claws and look like the Fabulous Felines you are as you make new friends and influence the influential.

VIRGO (August 23 to September 22) Expectations run especially high this week, and you should feel confident in your abilities to take advantage of what might be offered. A colleague has some advice you might find helpful.

LIBRA (September 23 to October 22) A recent flurry of activity leaves you in need of a little breathing space, and you'd be wise to take it. Close family members should have an explanation about an emergency situation that just passed.

SCORPIO (October 23 to November 21) An insensitive act makes a difficult situation more so. But try not to waste either your physical or emotional energies in anger. Move on and let others fill the clod in on the facts of life.

SAGITTARIUS (November 22 to December 21) It's a good time to look into that training program or college course you've been considering. You might have a good place to use those sharpened skills sooner rather than later.

CAPRICORN (December 22 to January 19) Education dominates much of your aspect during this week. You might want to start checking out those summer session courses that could help advance your career plans.

AQUARIUS (January 20 to February 18) Progress often comes in fits and starts. But at least you're moving straight ahead with no backsliding. You should soon be able to pick up the pace and reach your goals in due time.

PISCES (February 19 to March 20) Be wary of a deal that gives confusing answers to your questions. Remember: It's always risky swimming in unknown waters, so you need all the help you can get to stay on course.

BORN THIS WEEK: You have a way of bringing people together and creating close friendships wherever you go.
